

## 20130831 email Hartman to Councilor Harris

This email provided a lot of detail on crime statistics, provided by the DA's office. The Four Hills and Singing Arrow attachments from the DA's office are provided separately as attachments on the FHVHA web site. I did not save all of these as PDF in the interest of both time and space. If you look at the Four Hills and Singing Arrow attachments, you'll find 4 incidents in the Four Hills Area (not just Four Hills), and 11 pages of incidents in the Singing Arrow Area, which is why I'm very concerned about a low-income, high-density housing project on far East Central.

Roger Hartman, President, FHVHA

Don

Here's a very concrete example of why I'm concerned about the possibility of opening a new low-income housing project nearby at Central and Tramway. If you look at the crime stats for the Four Hills and Singing Arrow areas (both files attached), you'll see that in the Four Hills area, one of the four listed is in Four Hills, one is in the far east Central area on east Central, one is just off Central (700 block of Juan Tabo NE), and one does not give a location. When you look at the Singing Arrow file, there are 11 pages of incidents, of which a very large percentage are on far east Central, right smack in the area where yet another low-income housing project is envisioned. A significant portion of the incidents occurred in the low-income housing areas themselves.

I pass these along to our membership because naturally people who live in Four Hills and other near by areas really care about this, so I think it's reasonable to assume that

people will be looking for a thoughtful analysis from your office. When Michael provides his input to us, I would expect that this type of objective evidence of the activity that at minimum correlates to proximity to low-income areas will be included in his analysis. The statistics are pretty compelling.

Thanks.

Roger Hartman, President, Four Hills Village Homeowners' Association
