

Many have asked where is 13001 E. Central, the site of the proposed low-income, high-density housing project that in January, 2014, with almost no opportunity for public comment, received \$1.8 million taxpayer dollars from the Albuquerque City Council. This will have about 75 units and less than one parking space per unit.

If you wish to see all the correspondence between the FHVHA and Councilor Harris' office, see [www.four-hills-village.com](http://www.four-hills-village.com) under the "more..." tab.
